2010 Saskatchewan Crop District Crop Production

Area, yield, and production information is available by Crop District for the following crops: winter wheat, spring wheat, durum, all wheat, oats, barley, all rye, flaxseed, canola, peas, chickpeas, lentils, mustard, and canary seed. Also available is summerfallow area by Crop District, total seeded area and total production by Crop District and 10-year average seeded area and production by Crop District.

- Total 2010 crop production of the listed crops was 21.7 million tonnes, down 10.8 per cent from the 2000-09 average.
- Total 2010 seeded area of the listed crops was 28.7 million acres, down 14.0 per cent from the 2000-09 average.
- All but four crop districts had lower than average seeded acres due to excess moisture.
- Half of the crop districts had lower than average production due to lower seeded area and harvest difficulties.
